Director Academics

Convener
DR. RUPALI TARU

Co-Convener
DR. IKRAM QURESHI

Advisory Board

Dr. V.S. Valecha, Dr. L.M. Dani, Dr. Nidhi Yadav, Dr. Aman Gupta,
Dr. CA Subhash Desai, Dr. Swati Desai

Organizing Committee :

Dr. Arun Kumar
Dr. Ajit Kaswan
Dr. Noopor Mahawar
Dr. Rampratap Saini
Dr. Rakesh Kumar Jat
Dr. Anil Kumar
Dr. D. K. Singh
Dr. Subhash Modi

About the conference:

As the new mutant strain of corona virus is 'out of control'. Residents have told to limit socializing to their local areas. The Home Ministry in India has also called for an urgent meeting to discuss the new mutant corona virus strain. And have been asked now to stay at home and follow the strictest of corona virus regulations. The mutant COVID-19 strain, three things have emerged from the spread: a. It is rapidly replacing other versions of the corona virus. b. Parts of the virus have demonstrated mutations. c. Some of these mutations have already been found to increase the ability to infect cells. With these three factors, it is believed that the new mutant virus strain can spread easily. So far there has been no evidence to suggest that the mutant corona virus strain is more deadly, although that will need to be ascertained. However, increasing transmission is a cause for concern not only for the masses in general but also for the healthcare infrastructure. As viruses go, the new mutant strain seems to be spreading fast. The first case was detected in September 2020 but in November 2020, around a quarter of cases were the mutant ones. In mid-December 2020, the patient figure increased to nearly two-third. Although concentrated that the variant has been detected in India has reported the first eight cases of mutant Corona virus. A similar variant has emerged with similar mutations but appears to be a different strain. So far there is no evidence to suggest that they won't. Leading vaccines work by developing an immune response to the existing spike. Vaccines train the immune system to attack several parts of the virus. Even if parts of the spike mutate, the vaccines should work against the virus. This **National Conference on 'Issues and Challenges of the new strain of mutated coronavirus in all over the India'** offers a unique opportunity to get your work published and viewed by hundreds of thousands of peers, students, and other members of the academia around the nation.

Objectives :

- Aims to spread awareness about critical health issues facing the India due to the **new strains** of mutated **coronavirus**
- Identify the role of stakeholders to control over the spreading of new strain of mutated coronavirus
- Analyze the effective prevention control method over the new strain of mutated coronavirus
- Study of proactive methods use on international communication and transaction on platform of education and business sector

Sub themes :

- Issues and Challenges of the new strain of mutated coronavirus and its impact on education and business sector
- Issues and Challenges of the new strain of mutated coronavirus and its impact on human life
- Effective role of IoT and cloud technology during the entire phase of new strain of mutated corona virus
- Emerging legal formalities during the entire phase of new strain of mutated coronavirus and change in policies and regulations over transportation and mass communication
- Effective strategies and planning on global administrative platform to make life easy and smooth for citizen of all countries
- Emerging medical research and development in pharmacy sector for better healthcare support during of new strain of mutated corona virus
- Study of human psychology and lifestyle for better health care during the phase of new strain of mutated corona virus
- Study on serious and proactive control measures to protect the environment science during the new strain of mutated coronavirus
- Effective organized workshop in different regional languages boost the awareness about new strain of mutated corona virus
- Analytical study of challenges in agriculture sector during the phase of new strain of mutated corona virus

Particulars	Amount
ACADEMICIANS / RESEARCH SCHOLARS	3,000/-
CORPORATE DELEGATES/ POST GRADUATE STUDENTS	500/-
GRADUATE STUDENTS	100/-

CALL FOR PAPER :-

Word limit for Abstract: 250 words, **Word Limit for Full paper:** 2500 words, maximum six pages including graphs, tables and appendix. **Paper Submission for publication up to 10th April 2021**

Key words: maximum: 5 words, **Referencing style:** APA style

Format: MS Word, Font Times New Roman, Title should be 14 Font size and paper Font size 12, single spaced and a margin of 1" on all sides Correct name, designation, e-mail ID of the authors and affiliating organization need to be clearly mentioned on the first page of the paper followed by abstract and paper.

Paper Submission E-Mail Id :conference@jjtu.ac.in

*Payment Mode : Cash / DD in favor of JJT University, payable at Jhunjhunu
