About the conference:

Atmanirbhar India is a novel concept by the government motivating Young entrepreneurs to come up with innovative plans and be self-dependent. This will definitely contribute to the growth and development of Indian economy. Nevertheless to say sustainable development is another innovative approaches in the business which is creating a long-lasting value by taking into consideration the method of business operating in the given environment. It is a need of an hour for every business not only to be AtmaNirbhar but also focus on sustainability. Most of the large business units under the guise of CSR have focused on sustainable development. Many reports have shown an upward trend in sustainability in Indian business market. In order to achieve the goals of the government, young entrepreneurs of our country need to focus on self-dependent and sustainability development. It should try to optimise both social and business values and expect fair returns on investment. Business models and related business activities require entrepreneurs and innovations that foster the transition to fit companies for the future, based on values such as accountability and justice. This undertaking, in turn, requires much more progress in interdisciplinary, multidisciplinary areas of business

Businesses should maximize their social and business value, using their core businesses to achieve the financial returns expected by their owners and, in tandem, to help the company meet its most important challenges. To do this, business leaders should reinvent corporate strategy by creating new ways of differentiating, integrating societal value into products and services, reinventing business models for sustainability, successfully taking new performance measures and reshaping business ecosystems to support these initiatives. While this is a major challenge for any management team, the future of the company, our environment and our country depends on it.

Objectives :- This conference aims at coming up with discussions of new business ideas with potential of contributing to Atmanirbhar and sustainability development. This conference will gives opportunity for researchers, scholars, corporates to prepare and present paper enabling them to express and put forth their ideas globally.

This International conference aims as:

1. To know about implementation of Sustainable development by the entrepreneurs and the business keeping in mind the objectives of the government
2. To know about the policy measures need to be taken by the government in implications of such program
3. To suggest new measures or changes to the government or business units that can be implemented to achieve the objective of the program
4. To identify and distinguish the role and importance of Atmanirbhar in this global village
